

Probiotic Solutions for Restaurants and Food Service

Count on probiotic cleaning for the most active or delicate of spaces. With unmatched consistency and reliability, our microbials work long after application, producing a lasting clean with clear environmental and cost benefits.

Let us break it down for you.

- **Grease Traps & Drains** – Reduce frequency of pumpouts, eliminate FOG exceedance surcharges, and neutralize malodors
- **Floors** – Remove embedded residual grease and organics in porous tile, cracks, crevices, and corners
- **Beverage Tower Trays** – Provide a continuous dosing of beneficial bacteria and surfactants to help unclog blocked lines, prevent the formation of sugar snakes, and control odors
- **Septic Systems** – Maintain optimum system performance by facilitating the breakdown of organic waste
- **Garbage Disposals** – Foaming probiotic cleaning action keeps disposals running smoothly

ENVIROZYME®
