BioRemove COD

General Industry

Improves effluent quality and plant stability through enhanced COD degradation

Industrial wastewater presents a unique set of treatment challenges. Waste streams are constantly changing with production, and harsh chemicals often make their way into the wastewater, which can inhibit biological activity and be difficult to break down. A key variable in the process that determines success or failure of a treatment process is the types of microorganisms in the microbial community and the ability of the microbial community to adapt to changes in the waste stream.

BioRemove COD: A Broad-Range Biological Solution for Complex Waste Streams

BioRemove COD is EnviroZyme's most versatile product for industrial wastewater and is effective for highly complex waste streams. It has a diverse set of microorganisms that target a wide range of organics found in a variety of industries. BioRemove COD has the broadest range of biological activity and helps keep plants in compliance and in control.

The Benefits of Using BioRemove COD

Lower operating costs

- Reduces surcharges
- Reduces permit violations

Improved plant efficiency

- Improves COD reduction for complex waste streams

Simplified operations

- Improves stability for complex waste streams

Plant Stability

Micro Solutions. Major Impact.

Clean water is essential for healthy people and a healthy planet. EnviroZyme’s microbial solutions use bioaugmentation to naturally and efficiently treat water before it’s returned back into the system. Our team of experts have come together to create environmentally-focused microbial solutions and technical services to support water resource recovery facilities in their global quest to provide clean water.

Billions of microorganisms at your service.

SKU #	PRODUCT	BENEFITS	SIZE
Industrial Wastewater COD Reduction			
WTP959P26	BioRemove COD	BioRemove COD contains a combination of specially selected microorganisms that are blended to treat a broad spectrum of highly complex wastewaters.	25 KG (55.12 lbs.)
WTP959P XK			10 KG (22.05 lbs.)
WTP959RP6			11.35 KG (25 lbs.)
WTP959RP5			25 x 454 G Pouches (25 - 1 lb. Pouches)
WTP959RP2			50 x 227 G Packs (50 - 1/2 lb. Pouches)
