

Solid Technology

Micro Solutions. Major Impact.

Solids are designed to provide continuous biological treatment by dissolving over a period of time.

This type of delivery system offers many pros:

- Simple and easy to use
- Deliver chemicals without a pump or labor needed
- Provide continuous release of beneficial microorganisms
- Degrade at a consistent rate
- Long shelf life
- Multi-strain, high CFU/gm concentrations

EZ's solids are extruded!

The extrusion process tightly packs in solid products, which makes the blocks very dense. The density of the product ensures that it dissolves uniformly over time, without breaking into chunks, aiding in consistent dosing.

Blocks:

- Available in multiple sizes for flexibility in dosing
- Equipped with a mesh netting bag to allow it to be hung directly into the waste stream
- Saves money by reducing the frequency of manual cleanouts/pump-outs, eliminating daily or weekly treatments preventing blockages, and lowering grease disposal cost
- Significantly reduces malodors associated with organic waste and sludge

Pucks:

- Allow for easy tossing application
- Sink deep into the sludge blanket
- Treat entire lagoon system along with localized treatment of sludge islands and trouble spots
- Accelerate sludge reduction and increase aqueous phase
- Significantly cut your dredging frequency and costs
- Designed to work in anaerobic and facultative conditions

ENVIROZYME®

Sludge and Lagoon Pucks
PLS509

Slow Release
FOG Block
GTS305

Billions of microorganisms at your service.

SKU #	PRODUCT	BENEFITS	SIZE
SLUDGE CONTROL AND REDUCTION			
PLS509P43	Sludge and Lagoon Pucks	Biological solid pucks used in the treatment of municipal, industrial, and agricultural/animal lagoons, basins, and holding ponds	100 – 4 oz. Pucks (4 bags of 25/ pail)
CONTROLLED RELEASE BIOLOGICAL TREATMENT			
GTS306C16	Rapid Release FOG Block	Solid block designed to provide continuous biological treatment of organic content in the waste stream	12 – 2 lb. Blocks
GTS306C81	Rapid Release FOG Block		4 – 5 lb. Blocks
GTS306C11	Rapid Release FOG Block		2 – 10 lb. Blocks
GTS306C8	Rapid Release FOG Block		4 – 2 lb. Blocks
CONTROLLED RELEASE BIOLOGICAL TREATMENT			
GTS305C16	Slow Release FOG Blocks	Longer-lasting solid block designed to provide continuous biological treatment of organic content in the waste stream	12 – 2 lb. Blocks
GTS305C81	Slow Release FOG Blocks		4 – 5 lb. Blocks
GTS305C11	Slow Release FOG Blocks		2 – 10 lb. Blocks
GTS305C84	Slow Release FOG Blocks		1 – 20 lb. Block
